## SMOOTHEDGE CARPET GRIPPER

### *What is Roberts Smoothedge?*

### **Smoothedge is engineered carpet gripper**

#### **Engineered Smoothedge**

- Engineered carpet gripper has more plywood, more pins, and more pre-nails than any other brand.
- A full 22mm wide; as much as 10% wider than other brands. Wider gripper means the pins and pre-nails are further from the wall, making it easier to fit the carpet and harder to hit the wall.
- 78 pins compared to 70 pins or less for other brands is at least 800 more pins per carton for greater holding power.
- 11 nails compared to 10 for other brands; holds the gripper tighter to the floor.
- The bevel angle of 30 degrees provides extra tucking room needed for stiff backed carpets.
- We use only high strength carbon steel nails from non-Chinese manufacturers.
- We use only 5 ply Russian birch plywood.
- Russian birch plywood stays flat and is 100% stronger.
- Made in the U.S.A.

R185E		SMOOTHEDGE MEDIUM PIN - CONCRETE	500ft
R190		SMOOTHEDGE MEDIUM PIN - DUAL PURPOSE	500ft
R180SH		SMOOTHEDGE SHORT PIN - WOOD	500ft

***No more using 2 pieces of gripper when 1 piece will do***

***Benefits of using engineered***

- More than enough strength to handle the toughest woven carpet and the toughest patterned carpet.
- No more plywood delamination or wood splitting.
- No more broken nails, no more pins standing up.
- No more plywood warping.
- No more rusty pins and nails.
- No more re-stretches.
