Plan Objective

Roberts intends to reduce the use of NPE's in adhesive production and lower the concentration of NPE's contained in Roberts' adhesive products.

Changes in Quantities from Previous Year

	Enters Process	Contained in Product
2012 (metric tons)	>10 to 100	>10 to 100
2013 (metric tons)	>10 to 100	>10 to 100
Change in KG.	- 4802	- 4672
Change in %	- 14.3	- 10.3

Method of Quantification

Mass balance based on incoming inventory records, batch records of formulations and hazardous waste manifests. No change in tracking or quantification methods from the prior year.

Progress in Reducing NPE usage

Roberts has made good progress to reduce NPE usage with an approximate reduction of 14.5 % this year. The amount of NPE contained in products has been reduced by approximately 10.3 %. This is a result of implementing the Toxic Reduction Plan using equipment modification and product reformulation. The steps in the plan are being followed and no modifications to the existing plan have been made.

As of May 12, 2014 I Ravi Williams-Singh certify that I read the toxic substance report and am familiar with its contents. To my knowledge the information contained in the report is factually accurate and complies with the Toxics Reduction Act 2009 and Ontario Regulations 455/09 and 125/10
