The ROBERTS® professional floor rollers are ideal to use when installing VCT, linoleum, carpet, sheet vinyl, cork underlayment and other floor coverings. Highly effective, they are expertly engineered with precision-ground, segmented, chrome-plated rollers that evenly distribute and flatten adhesive build-ups, ensuring a smooth and level installation. Its removable 30" handle wheels make these heavy-duty rollers easy to store. Detachable Transport Wheel Assembly Kit is included with purchase of 75 lbs and 100 lbs rollers. It can be purchased as an accessory to add to 35 lbs roller.
