

# 2.5 MM Cork Pro Plus Underlayment

70-173-230

CERTIFIED BY SCS Global Services

**CRACK SUPPRESSION**

Resists the transfer of subfloor cracks to the finished floor

**INSULATING**

Reduces thermal transmission, increasing effectiveness of floor heating systems

**R-Value  
0.30**

**ENVIRONMENTALLY FRIENDLY**

Made of cork, a renewable resource and recycled EVA foam

**SAFE**

Exceeds indoor air quality standards

**SOUND ABSORBING**

Provides acoustical sound reduction and cushioning

**IIC STC  
55\* | 55\***

**NATURAL BARRIER**

Cork is antimicrobial, mold and mildew resistant

**COMPATIBLE**

Ideal for double-bond applications with recommended ROBERTS adhesives

**VERSATILE**

For glue down or floating installations of LVT, VET, sheet vinyl and linoleum floors

Our Cork Pro Plus products may contribute towards satisfying credits under the LEED® Green Building Program in the following areas:

- MR 4.1 - 5% Recycled Content of total building materials (post consumer + 1/2 of post industrial)
- MR 4.2 - 10% Recycled Content of total building materials (post consumer + 1/2 of post industrial)
- MR 6 - Specifying rapidly renewable building materials for 5% of total building materials.
- EQ 4.1 - Low Emitting Materials Adhesives & Sealants (Adhesives Specified meet SCAQMD Rule 1168)

# The Ultimate Sound Barrier, Crack Suppression and Cushioning Underlayment.

## What is Cork Plus Pro?

Cork Plus Pro is the next generation of cork underlayment. It is comprised of both cork, which is a renewable resource, and recycled EVA foam, the unused material generated in the manufacturing and production of athletic shoes. Cork Plus Pro may be used with tile, stone, engineered hardwood and laminate floors, and may be installed with common flooring adhesives, thinset and mortars.

**CORK REMOVED FROM TREES**

**RECYCLED  
EVA FOAM**

## What are the benefits of using EVA foam in Cork Pro Plus?

Cork Pro Plus reduces the disposal of non-degrading EVA foam into landfills. The addition of foam to these underlayments also makes them more flexible and less prone to breakage than standard cork. EVA foam is non-toxic, used in all types of shoes and approved for skin contact. EVA foam, like cork, does not absorb or hold water.

## CORK PRO PLUS DELIVERS!

- ✓ Environmentally friendly, made of natural and recycled materials
- ✓ Acts as a sound barrier for decreased sound transmission
- ✓ Antimicrobial, mold and mildew resistant
- ✓ Reduces thermal transmission
- ✓ Resists the transfer of subfloor cracks
- ✓ For installation under a variety of hard surface flooring
