Also Available: 20-tooth blade (Roberts 10-47-6)

DURABLE
Custom molded carrying case with metal clips

The 10-56 *Longneck Plus* 6" Jamb Saw has a unique 1-1/2" vacuum port for dust containment plus a large back plate for extra stability. The 1100 watt, 8000 RPMS industrial grade motor provides the necessary power for any job. This jamb saw is also equipped with a 6-3/16 inch, 36-tooth carbide tip blade designed to easily cut door jambs, trim and molding for installation of new floors. Also included is a high performance masonry blade that easily cuts through brick and cement block.

The *Longneck Plus* is equipped with an adjustable cutting depth guide to prevent cutting into plaster or wall board when trimming and the cutting height is adjustable from flush to 1-1/16 inch. It's designed to cut full inside corners in molding up to 1/2 inch thick and doors as thick as 1-3/4 inches can be undercut without removing. Includes a custom molded carrying case with metal clips for storage and portability.
