INFORMATION

ROBERTS® Indoor RUG GRIPPER™ Anti-Slip Tape for small rugs and mats offers non-slip strength, to eliminate bunching or sliding across the floor. This tape can be used on tile, marble, laminate, wood and carpet. For best results, position the tape down on the surface, peel, cut to size, place rug or mat over, and apply pressure to set in place. It releases quickly, allowing you to easily reposition your rugs. It is safe, non-toxic, and odor free. This is an easy and time-saving alternative to adhesive or tack strip.
